## MALIFAUx TEAM TOURNAMENT

### GENERAL RULES FOR ALL MALIFAUx TOURNAMENTS

All Tournaments will be run using the [Malifaux Gaining Ground 2011](#) rules. Exceptions and special rules are listed below:

- All Models must be fully painted (3 color standard) and based.
- Proxies are not allowed for any models.
- Conversions are allowed for any publicly release model as long as 66% of the model is either a Wyrd model or hand sculpted. All conversions must be approved by the TO before the start of the event.
- All Schemes are considered unique during the tournament and may only be selected once through the entire tournament.

### MALIFAUx TEAM TOURNAMENT (30 STONES)

**Round Time Limit:** Brawl (including Setup) - 50 stones – 150 Minute time limit

#### Strategy Selection

- **Fixed Shared Strategy Tournament:** Each round, the TO announces the Shared Strategy to be used by the players. The TO will pick a different Shared Strategy each round. These can be Core or Expanded, and the TO uses the Rules Manual to announce them. These Strategies will be announced ahead of time (mid-January 2012) so crews can be built around them.

#### Crew Construction

- **Fixed Crews (Brawl Compatible Masters):** Each player will draft a 25 stone scrap crew for the tournament independent of their team mate. With the following exceptions below:
  - A team's set of masters must be brawl compatible (follow [this link](#) to see what masters are compatible).
  - Model Rarity is handled on a crew basis. Example: If your masters are Lady Justice and Perdita, both your crews can contain an Executioner.
  - Unique models may only be taken once per team. Example: In the above example only one of your crew could contain Nino Ortega.

#### Special Rules

- Each player will control his own 25 stone crew. He/She will have his own control deck and his/her own pull of Soul Stones to work with
- **Initiative:** Each round each team will nominate one player to flip initiative for their team. That player uses his/her own control deck and soul stone pull for the flip. Only his/her models can affect their flip or their opponents flip.
  - *Example: Team A (Dan and Dave) are playing against Team B (Victor and Bret). Team A selects Dave to flip initiative. Team B selects Bret. Dave has a doppelganger in his crew so Team B will have a negative flip to their initiative.*
- **Model Activation Sequence:** After initiative is flipped, the winning team selects one team member to be the first player and the other player to be the third player. The opposing team then selects which player will be the second player and which player will be the fourth player. The round then begins with the players activating in the order selected above. This order remains the same through the entire game round. When a player has run out of models to activate his phase is skipped.
  - *Examples: Team A has won initiative. Dan chooses to take the 1st Player card. Dave is then left with the 3rd player card. Bret then takes the 2nd player card leaving Victor with the 4th player card. Dan will then activate his first model, followed by Bret, then to Dave and finally Victor. This order will remain the same for the entire game round.*
- **Player Elimination and Activation Sequence:** In the event that one player is eliminated from the game. His/Her teammate then gains the option to activate on either or both of the activation phases.
  - *Examples: Victor has been eliminated from the game. Team B had one initiative this round so Bret can now choose to activate his models on either Phase 1 or Phase 3. He must activate on at least one of those phases but he can choose to activate on both if he has inactivated models to do so.*
- **Schemes:** Each player will select one scheme each round. When selecting the Scheme they must reveal which opposing crew they are performing the Scheme against. Schemes are unique and may only be used once in the tournament per team.

## MALIFAUx TEAM TOURNAMENT

### How to Track Scores

- **Total Victory Points, Tournament Points, and Victory Point Differential:** At the end of each Encounter, players tally up the VP that they earned that round. The player that earned more VP than his or her opponent wins the game and the opponent loses the game. In case of the same VP count, the game is a Draw.
  - Victory Points [VP]: This is the amount of points each player earned. Using the example above, Drew would have 6 VP while Zee would have 4 VP.
  - Tournament Points [TP]: A Win awards 3 TP to the winner, a Draw awards 1 TP to each player, and a Loss awards 0 TP to the defeated player. Eg. Drew and Zee played a game, and Drew scored 6 VP while Zee scored 4 VP. Drew receives 3 TP, while Zee receives 0 TP.
  - Victory Point Differential [VPD]: Note the difference between the players VP at the end of the Encounter. The player with the higher score scores VPD equal to the positive amount of that difference, while the player that had the lower score receives VPD equal to the negative amount of that difference. Using the example above, Drew would have +2 VPD, while Zee would have -2 VPD.

Combining the above statistics, at the end of round one, Drew has a score of 6VP/3 TP/+2VPD, while Zee has a score of 4VP/0TP/-2VPD.

### Pairings and Scoring Format (DIFF Primary Format)

First round pairings are random. After the first round, the TO pairs players based on their DIFF scores. Players will always play other players with similar DIFF scores. After round one, and continuing for all rounds, players with positive DIFF should be paired off against one another, while players with neutral or negative DIFF should be paired off against one another.

### Determining a Winner (DIFF/VP/TP)

At the end of the tournament, rank all players in descending order from highest DIFF to lowest DIFF. The player with the highest DIFF is the winner! In case of any DIFF ties, the VP becomes the first tie-breaker - the player with the higher VP wins. If this is also tied, TP is the final tie-breaker, wherein the player with the higher TP wins the tie.

## FREQUENTLY ASKED QUESTIONS

**Q: Are my partner's models considered friendly models? IE Do abilities such as Nicodemus' Bolster undead work on my partner's models?**

A: Yes, your partner's models are considered friendly.
