SCENARIO SPECIAL RULES

Game table size: 48 by 48 inches

DOMINATION AREAS

When the game is finished, **but not before**, 3 *Domination Areas* are marked out. These *Domination Areas* are 8 inches deep and as wide as the game table. Two of these *Domination Areas* are placed 4 inches from the central line of the game table, one on each side, and the third *Domination Area* will be a strip 4 inches wide in the central area of the table (See map below).

An area is considered Dominated by a player if he has **more** Army Points than the adversary **inside** the area. Only troops considered as being **miniatures** or **Markers** (Camouflage, *Spawn-Embryo*, *Seed-Embryo*...) count, as well as *AI Beacons*, *Proxies* and *G: Servant Remotes*. Those troops in *Unconscious*, *Dead* or *Sepsitorized* states will not be counted. Those Markers representing weapons or pieces of equipment (Like Mines or Deployable Repeaters), fake Holoechoes and any Marker that does not represent a trooper will not be considered either.

A troop, being a miniature or a Marker, will be considered inside a *Domination Area* if it has **more than the half** of its base inside that *Domination Area*.

Shasvastii

Troops possessing the *Shasvastii* Special Skill placed inside a *Domination Area* will always be counted while they are in Normal, *Unconscious* or *Spawn-Embryo* states.

Baggage

Troops possessing the *Baggage* Special Skill placed inside a *Domination Area* will also be counted, providing the extra Army Points this Special Skill grants.

Groups

Troop groups with one single Cost value for all of them (Antipode Assault Packs, Zoe & Π-Well, Carlota Kowalsky & Moriarty...) must all be placed inside the *Domination Area* to be counted.

END OF THE MISSION

This scenario has a limited time frame, so it will automatically finish at the end of the **third game turn**.

If one of the players starts his active turn in the *Retreat!* state, the game will end at the end of that player's turn.

SCENARIO SPECIAL RULES

Game table size: 48 by 48 inches

QUADRANTS

At the end of each Game Turn, but not before, the table is divided in four areas as seen on the map. Then, each player checks how many *Quadrants* they are dominating and Objective Points are counted.

A *Quadrant* is considered *Dominated* by a player if he has more Army Points than the adversary **inside** the area. Only troops considered as **miniatures** or **Markers** (Camouflage, *Spawn-Embryo*, *Seed-Embryo*...) count, as well as *AI Beacons*, *Proxies* and *G: Servant Remotes*. ADEPTICON 2014

INFINITY JOINT OPERATIONS TOURNAMENT

CLASSIFIED OBJECTIVES

In ITS scenarios, *Classified Objectives* are additional objectives a player can accomplish to get more Objective Points.

Usually, each *Classified Objective* provides 1 Objective Point, but this amount can vary due to the special conditions of the scenario.

Each *Classified Objective* provides its Objective Points one single time in each scenario. Even if the requirements of the *Classified Objective* are achieved again, it will not provide additional Objective Points.

A troop who has been affected by *E/M* Special Ammunition and has his weapons and equipment *Disabled* can still accomplish the *Classified Objectives*.

SELECTION

Each scenario specifies how many *Classified Objectives* can be accomplished in it.

The players will choose one of the models of the Classified Chart provided and roll twice for each *Classified Objective* allowed in the scenario. Players are able to choose one result from the two dice rolls. If both rolls give the same *Classified Objective*, the player can repeat one of the dice until the result is different.

The players will make the Classified Chart roll after finding out which mission will be played and which army he will have to face, but before choosing his Army List (In those situations where the tournament allows creation of more than one Army List).

The *Classified Objectives* must be kept secret until the moment they are accomplished. Once they are chosen, the player must note them down in the same way he does for a *Hidden Deployment* unit or his *Lieutenant*.

OBJECTIVES

DATA SCAN

Requirements: *Hacker*

Objective: The *Hacker* must to succeed at one *WIP-3* Roll against any enemy model placed inside his *Zone of Control*.

EXPERIMENTAL DRUG

Requirements: *Doctor* or *Paramedic*

Objective: To succeed at a *Heal (Doctor)* or *Heal (MediKit)* on any allied figure.

EXTREME PREJUDICE

Requirements: -

Objective: To perform a *Coup de Grâce* against an *Unconscious* enemy model.

SABOTAGE

Requirements: *D-Charges*

Special: The player must choose a scenery item placed entirely inside the enemy's half of the table. This scenery item will be considered the target of the *Classified Objective*.

Objective: To detonate a *D-Charge* on the targeted scenery item. It is not necessary to make an *ARM* Roll for the item.

TELEMETRY

Requirements: *Forward Observer* or *Hacking Device Plus*

Objective: To succeed at a *Forward Observer* marking Roll against one enemy model.

TEST RUN

Requirements: *Engineer*

Objective: To succeed at an *Engineer* Roll on any allied figure.
