o A results slip will be provided for both players to complete at the end of each game.
o In the event of a tie, players will be matched by Casualty points.
o You will not play the same person twice.
- Scoring
o Once a game is finished, victory is determined by objectives held per scenario description.

## SETUP

1. Both players roll a die. The highest roller picks a table side.

## FIRST TURN

Let battle begin.

## © BIECTIVE

Two scouting forces are returning to their own lines through the remains of a ruined outpost when they come across each other unexpectedly. Each side must try to retreat towards its own lines whilst inflicting as much damage on the enemy as it can. Both sides have the same objective- get as many units off the opposing edge as you can and stop the enemy doing the same. Units can exit at any point along the opposing edge and not just the portion of the edge covered by the enemy's deployment zone.

## VICT $\oplus$ RY

At the end of the allotted time, calculate who won by adding up victory points as follows. Players score 1 victory point for each enemy unit destroyed. Players score 2 victory points for each unit they get into the enemies deployment zone. 3 points are scored for each unit able to exit off the enemy's table edge. If one side scored 2 more victory points than the other they are the winners for this round.

## SETUP

1. The youngest player decides if they are the defender or the attacker.
2. The defender picks a side of the table and sets up one infantry squad if they have it or a recon vehicle within six inches of the objective. Then he picks half of the remaining units to form his first wave. Any remaining units will enter as reinforcements after turn three from his table edge.
3. The attacker sets up any and all of his units anywhere on his table edge so long as they are no more than 24 inches from the objective or either enemy units already deployed.

## FIRST TURN

The sun has not broken through the dense cloud cover yet so for the first turn Night Fight rules are in effect.

Additionally it is Friday the $13^{\text {th }}$ !!! Anytime a vehicle moves, roll a die. On a 6 for an advance move, or 5-6 for a run move, the vehicle has thrown a track or punctured a tire. The crew can repair this in their next turn with a down order. If an infantry unit rolls two or more sixes any time it fires they have temporarily run next turn with a down order.
