SPORTSMANSHIP SCORING

Be gracious in victory and defeat.

Operating on assumption that all players are good sports, opponents are automatically granted 10 points for Sportsmanship for each game. If opponents turn out to be less than good sports, players need to report it to the TO's table, before the start of the next round, using the following categories and examples as a guideline. **Keep in mind;** everyone gets a little salty now and then, forgets (or misplaces) their tape measure once in a while, temporarily forgets how a rule works, or changes their mind about a decision, etc.

Salty Attitude: Complain a lot. Constantly ask to see your rules—even for basic things. Act put-out if you ask to see their rules. Do not communicate intentions or establish agreement with regard to movement, line of sight, etc. Are impatient, dismissive, curt, etc.; sore losers or ungracious winners.

Unprepared for Play: Show up very late. Haven't read the tournament rules. Haven't read the mission description. Don't have the majority of the things needed to play the game (have to borrow a lot).

Incompetent Play: Unable to execute the core rules of the game without frequent referencing or coaching. Spend inordinate time looking things up (i.e. do not have materials prepared, marked, or printed for quick reference).

Questionable Play: Not quite cheating, but not above-board either. 'Generous' measurements or movement. Frequently take back movement or other decisions after they are in process. Not clearly distinguishing between similar units. Not keeping track of scoring. Abuse 'playing by intent' by failing to establish what their intent is, but taking advantage of what it 'could have been'.

Sportsmanship Deductions: In all cases, the judge(s) will decide whether the described behaviors are Minor, Major, or Extreme instances.

- Minor instances will be minus 1-4 points each.
- Major instances will be minus 5-9 points each and a visit from the TO.
- Extreme instances will be minus 10 points and a visit from the Head TO.

GAME 3: FLARE!

*** READ THE ENTIRE SCENARIO BEFORE SETTING UP ***

SET-UP

Night operation. Search and destroy.

Mission Set Up: Create two 10" Deployment Zones along the two "long" table edges.

Deployment: Both players roll a die, the player who rolls highest chooses a "long" table edge. The other player will deploy opposite. Deployment Zones are 10" from the "long" table edge.

The player that did not pick sides deploys a unit with Forward Deployment (if any) in their Deployment Zone. The other player then deploys a Forward Deployer (if any) in their Deployment Zone. Alternate until all Forward Deploying units have been deployed.

All other units will arrive via First Wave. There are **no** Reserves.

Flare! This battle takes place in almost pitch-black darkness. At the start of each Turn, line of sight is only 12". The line of sight remains at 12" until the Flare Order Die is pulled. When the Flare Order Die is pulled, a flare has gone up and lights the entire battlefield, line of sight is immediately no longer reduced for the remainder of the Turn. When a player pulls the Flare Order Die, they pull a second Order Die.

At the start of each turn, put the Flare Order Die back into the bag. Line of sight is once again reduced to 12" until the Flare Order Die is pulled.

TURN I

The battle begins, put all Order Dice and the Flare Order Die in the bag and begin.

OBJECTIVE

Destroy the enemy and take the ground.

GAME DURATION

At the end of Turn 6, roll a die. On a 1-3, the game ends. On a 4-6, play a Turn 7. If a Turn 7 is played, the game ends at the end of Turn 7.

VICTORY

At the end of the game calculate the winner by adding up Victory Points as follows. The player that scores at **least 2 more VP** than their opponent is the winner. Otherwise, the result is a draw.

Players score **1 VP** for each enemy unit destroyed.

At the end of the game, players score **3 VP** for each friendly unit wholly within their opponent's Deployment Zone. *Empty* Transports and Tows do **not** score in the enemy Deployment Zone.

Units are **not** allowed to exit the table.

VP CRITERIA	NUMBER OF UNITS
Units Destroyed – 1 VP each	
Units in Enemy Deployment Zone - 3 VP each	
Total VP

GAME 2: SCATTERED DROP

*** READ THE ENTIRE SCENARIO BEFORE SETTING UP ***

SET-UP

Bad drop – the LV is hot!

Mission Set Up: Place the first Objective in the middle of the table. Place the second and third Objectives 18" to the left and right of the first Objective.

Deployment: Both players roll a die, the player who rolls highest is the Attacker. The other player is the Defender. The Attacker chooses a "long" table edge. The other player will deploy opposite.

Scattered Drop: Starting with the Attacker, each player selects half of their force (rounding up) to Airdrop. The selected units cannot be vehicles. The units not selected to Airdrop will arrive via Reserves (no Outflank). Put all Reserve units to the side along with their Order Dice. Put the Order Dice for all the Airdrop units into the bag.

Pull an Order Die. That player then places one model from an Airdrop unit anywhere on their half of the table. Once the model has been placed, scatter it 2d6" in a random direction. If the model would scatter off the table, place the model on the edge of the table and the unit then takes d3 hits (no Pins). Once the model is placed, "deploy" the rest of the models in the unit within 3" of the first model.

Spotters – If you airdrop a gun/team with a Spotter, place both the Spotter and the gun/team on table as desired (they do not need to be placed together) and then roll to scatter each separately.

If the model scatters into terrain (woods, building, etc.) the unit will "deploy" in the terrain.

Pull the next Order Die and continue until all Airdrop units have been deployed.

TURN 1

The battle begins, put only the Order Dice for the deployed units in the bag and begin.

TURN 2

Add the Order Dice for units in Reserve in the bag. Reserves may arrive via the player's "long" table edge.

OBJECTIVE

Capture the objectives.

GAME DURATION

At the end of Turn 6, roll a die. On a 1-3, the game ends. On a 4-6, play a Turn 7. If a Turn 7 is played, the game ends at the end of Turn 7.

VICTORY

The player that holds the most Objectives at the end of the game is the winner. If both players hold the same number of Objectives, the result is a Draw.

To capture an Objective, you must have an Infantry or Artillery unit within 3" of the edge of the Objective with no enemy units within 3" of the Objective at the end of a Turn. *Empty* Transports and Tows **cannot** capture or contest Objectives.

GAME 1: PRISONER CAPTURE

*** READ THE ENTIRE SCENARIO BEFORE SETTING UP ***

SET-UP

A captured enemy is worth his weight in gold to HQ.

Deployment: Both players roll a die, the player who rolls highest chooses a “long” table edge. The other player will deploy opposite. Starting with the player that picked sides, choose at least half of your force (rounding up) to be First Wave. The rest of your units (if any) will arrive via Reserves. Reserves **can** Outflank.

Scout the Enemy: The primary goal is to discover as much information as possible about the enemy force. At the end of each Turn (before Order Dice are added back to the bag) both players’ Lieutenants identify every enemy unit in open ground or soft cover within line of sight and 24” of the Lt. (draw line of sight as if conducting a Fire Order). Multiple enemy units may be simultaneously identified.

If the Lt is Down, they **cannot** identify enemy units. If the Lt is aboard a Transport, they **cannot** identify enemy units. When identifying an enemy Transport, only the Transport is identified, **not** the unit/s aboard. Mark each identified unit with one of the provided tokens. Once a unit is identified, it stays identified. The Lt is **not** required to keep the identified units within line of sight and/or 24”.

Prisoner Capture: If you defeat an enemy Infantry or Artillery unit in assault, an enemy soldier has been captured. Add one model from the defeated unit to the victorious unit to represent the prisoner. The prisoner does **not** count as a member of the unit in any way. The model is only a token. Each unit can only capture one prisoner at a time.

If a unit with a prisoner is destroyed, the prisoner is lost and does **not** score VPs.

TURN 1

The battle begins, put only the Order Dice for the First Wave units in the bag and begin.

TURN 2

Add the Order Dice for units in Reserve in the bag.

OBJECTIVE

Identify the enemy and capture prisoners.

GAME DURATION

At the end of Turn 6, roll a die. On a 1-3, the game ends. On a 4-6, play a Turn 7. If a Turn 7 is played, the game ends at the end of Turn 7.

VICTORY

At the end of the game calculate the winner by adding up Victory Points as follows. The player that scores at **least 2 more VP** than their opponent is the winner. Otherwise, the result is a draw.

Players score **1 VP** for each enemy unit identified. Each unit can only be identified once.

At the end of the game, players score **3 VP** for each captured prisoner and **5 VP** for a captured Lieutenant. Note, a captured Lt is worth a *total* of 5 VP, not 8 VP.

VP CRITERIA	NUMBER OF UNITS
Units Identified - 1VP each	
Prisoners Captured - 3 VP each	
Lt Captured - 5 VP	
Total VP
