## DEADZONE TOURNAMENT

### TOURNAMENT RULES

- **Force Construction:** 200pts 3rd Edition Core Rules with Living Legends allowed.
- **Recon Table:** Recon table will be used as detail on page 47 of the Core Rulebook. Winner of Recon roll can roll a number of dice based on the difference (max of 3). Use the following table for this second dice roll. These effects take place before Scout.

RESULT	EFFECT
1	Look at 1 item token, then replace it, face down in the cube it came from
2	Look up to 3 item tokens, then replace them face down in the cube they came from
3	Choose an item token and discard it without looking at it
4-6	Move one model in your Strike Team up to one cube. Do not mark it as activated. It cannot move into a cube with an enemy. It can only be moved this way once.
7	Optionally redeploy up to two models in your Strike Team. Must stay within the same Deployment Zone.
8	Choose any result

- **Items:** The appropriate amount of Item tokens will be at each map. Players are responsible for placing the items on their map prior to troop placement. Randomly select an item token and place it on the X's shown on the map. Place the Item token face down in the topmost intersecting cube.
